-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Applicant's election with traverse of the invention of Group I, claims 1 to 19, in the reply filed on 9-28-2005 is acknowledged. The traversal is on the ground(s) that it is necessary to obtain claims in both the product and method claim language and that the method claims necessarily use the product and vice versa and that the searches are coextensive and that the Examiner's suggestion that the product as claimed can be made by ion milling is very speculative. This is not found persuasive because method claims in a case can sometimes be utilized to form a different product than what is claimed and product claims in a case can sometimes be formed by a different method than what is claimed. The Examiner's position remains that his assertion concerning ion milling was reasonable and that the restriction requirement was appropriate. Claims 20 to 22 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

The requirement is still deemed proper and is therefore made FINAL.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 to 15, drawn to Forming or Treating an Article Containing a Magnetically Responsive Material , classified in class 216, subclass 22.
- II. Claims 16 to 19, drawn to Electron Beam Imaging, classified in class 430, subclass 296.

3. The inventions are distinct, each from the other because of the following reasons:
the Invention of Group I is akin to a combination method directed to the whole forming

Art Unit: 2652

process of forming a CPP GMR sensor whereas the invention of Group II is akin to a subcombination directed to an electron beam lithographic process and could be utilized to form a product other than a CPP GMR, such as a a memory array or a print head.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jefferson A. Evans whose telephone number is 571-272-7574. The examiner can normally be reached on Monday to Friday, 9:00am to 5:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, A. L. Wellington can be reached on 571-272-4483. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
